

Mission and vision	Mission	YT will take care of the vulnerable street children and orphans of Gondar with the hope of creating a better future for them. YT's overall goal is to show the street kids a way out of despair and poverty.
	Vision	YT do believe it is important for those vulnerable street kids to have a proper education. Intense network building will be necessary to give these children a longer-lasting perspective. Children should not have to sleep on the street but have shelter during the night. YT's aim is to support, to educate and to re-integrate. YT therefore will cooperate with other NGO's and volunteers. YT is an organization who is continuously reflecting about its own activities and preparing and adjusting the way to reach its goals.
